

CONTENTS

<i>About the Authors</i>	<i>xi</i>
<i>Foreword</i>	<i>xiii</i>
<i>Preface</i>	<i>xvii</i>
<i>About the Book</i>	<i>xix</i>
<i>Abbreviations</i>	<i>xxi</i>
1. Introduction	1
1.1 Water Pollution	2
1.2 Air Pollution	3
1.3 Land Pollution	3
1.4 Environmental Management	4
2. Sustainable Development	5
2.1 Introduction	5
2.2 Sustainable Development	5
2.3 Summary	21
3. Natural Resource Management and Biodiversity Conservation	23
3.1 Introduction	23
3.2 Three Key Concerns	24
3.3 Need for Protecting Natural Resources	24
3.4 Threats to Biodiversity	24
3.5 Biodiversity Hotspots	25
3.6 Bio-Propecting	27
3.7 Traditional Knowledge and Bio-Piracy	31
3.8 Access and Benefit-Sharing	32
3.9 Summary	34
Reference	35
Further Reading	35
4. Environmental Policies and Legislation	37
4.1 Introduction Current Environmental Issues	37
4.2 Global Warming	37
4.3 Ozone Depletion	37
4.4 Loss of Natural Resources	38
4.5 Environmental Ethics	38

4.6 Environmental Sustainability Index	38
4.7 International Environmental Law	39
References	55
5. Life Cycle Assessment	57
5.1 Introduction	57
5.2 Stages in Life Cycle Assessment	57
5.3 Life Cycle Assessment	59
5.4 The Life Cycle of Industrial Products	63
5.5 The LCA Framework	65
5.6 Streamlined Life Cycle Assessment	70
5.7 Stages in Process Life Cycles	73
Further Reading	75
6. Environmental Impact Assessment and Audit	77
6.1 Introduction	77
6.2 Environmental Impact Assessment	77
6.3 Environmental Impact Assessment in India	79
6.4 Elements of an Environmental Impact Assessment Report	81
6.5 Environmental Audit	90
6.6 Principle Elements of an Environmental Audit	95
6.7 Components of Auditing	95
6.8 Audit Process	96
6.9 Environmental Audit (EA) Report	97
6.10 Waste Audit	97
Further Reading	110
7. Environmental Accounting	113
7.1 Introduction	113
7.2 Forms of Environmental Accounting	114
7.3 Need of Environmental Accounting	115
7.4 Scope of Environment Accounting	115
7.5 Valuation Methods	121
7.6 Compilation of Physical Natural Resource Accounts	128
7.7 Example for Forest Accounts	130
References	133
Further Reading	134
8. Environmental Risk Assessment	135
8.1 Introduction	135
8.2 Use of Risk Assessment in Environmental Management	135

8.3	Hazard and Risk	136
8.4	Process of Environmental Risk Assessment and Management	139
8.5	Risk Evaluation	145
8.6	Emission and Exposure Control	146
8.7	Risk Monitoring	147
8.8	Risk Communication	147
8.9	Dealing With Uncertainty	149
8.10	Documentation	150
8.11	Advantages and Disadvantages of Risk Assessment	150
8.12	Role of GIS Software Applications for Environmental Risk Management	151
	Reference	151
	Further Reading	151
9.	Energy Management and Audit	153
9.1	Introduction	153
9.2	Types of Energy Audit	154
9.3	Ten-Step Methodology for Energy Audit	155
9.4	Audit Phases	157
9.5	Classification of Energy Conservation Measures	160
9.6	Energy Audit Reporting Format	161
9.7	Plant Energy Performance	165
9.8	Energy Audit Instruments	167
9.9	Calculating Energy and Demand Balances	168
9.10	Energy Audit for Buildings	170
9.11	Summary	175
	Further Reading	175
10.	ISO 9000, 14000 Series, and OHSAS 18001	177
10.1	Introduction	177
10.2	EMS Certification	178
10.3	Emerging Trends in Management of Environmental Issues	179
10.4	ISO 14000 Series	180
10.5	Guidelines for Auditing	196
10.6	Types of Audits	196
10.7	Risk Audit Techniques	201
10.8	Status of EMS in India	203
10.9	OHSAS 18001 Standard	205
	Further Reading	208

11. Principles and Design of Water Treatment	209
11.1 Introduction	209
11.2 Water Pollution	209
11.3 Water Quality Management	214
11.4 Treatment Technologies	218
11.5 Drinking Water Quality Monitoring	237
11.6 Removal of Dissolved Salts: Desalination Technologies	239
11.7 Dual Water Distribution	245
11.8 Sources of Wastes in Water Treatment	246
Further Reading	247
12. Wastewater Treatment Technologies	249
12.1 Introduction	249
12.2 Collection of Wastes	249
12.3 Sources and Types of Wastewater	250
12.4 Composition of Wastewater	251
12.5 Classification of Treatment Processes	255
12.6 Process Details	258
12.7 Sludge Treatment	282
12.8 Disinfection of Wastewater	285
12.9 Tertiary and Advanced Wastewater Treatment	286
Further Reading	293
13. Industrial Wastewater Treatment Technologies, Recycling, and Reuse	295
13.1 Introduction	295
13.2 Treatment of Industrial Wastes	296
13.3 Membrane Separation	302
13.4 Chemical Oxidation	307
13.5 Adsorption	308
13.6 Ion Exchange	312
13.7 Air and Steam Stripping	315
13.8 Pervaporation	317
13.9 Solvent Extraction	317
13.10 Gaseous Emissions From Industrial Waste Waters With Specific Reference to GHGs	318
13.11 Waste Minimization and Clean Technologies	323
13.12 Performing a Waste/Effluent Minimization Assessment	330
13.13 Clean Technologies	332
Reference	335
Further Reading	335

14. Air Pollution Control Technologies	337
14.1 Introduction	337
14.2 Classification of Air Pollutants, Their Sources of Emission, and Air Quality Standards	338
14.3 Air Pollutants and Their Harmful Effects	340
14.4 Air Pollution Dispersions: Temperature Lapse Rates and Stability	350
14.5 Temperature Lapse Rates	358
14.6 Temperature Inversion	360
14.7 Plume Characteristics and Plume Behavior	362
14.8 Gaussian Plume Model	364
14.9 Air Pollution Control Technologies	367
14.10 Methods of Control of Emissions From Point Sources for Oxides of Sulfur, Nitrogen, and Carbon	385
Further Reading	397
15. Noise Pollution and Its Control	399
15.1 Introduction	399
15.2 Sources of Noise	399
15.3 Effects of Noise Pollution	400
15.4 Effects on Health	402
15.5 Industrial Noise	407
15.6 Noise Source from Transportation Sector	410
15.7 The Noise Pollution (Regulation and Control) Rules, 2000, in India	411
15.8 General Noise Control	415
15.9 Control of Noise From Industry	421
15.10 Control of Noise From Transportation	423
15.11 Comparison of Air and Noise Pollution	428
Further Reading	428
16. Solid Waste Management	431
16.1 Introduction	431
16.2 Solid Waste and Its Composition	432
16.3 Typical Issues in Solid Waste Management	434
16.4 Steps in Solid Waste Management	437
16.5 Methods of Waste Disposal	444
16.6 Green Productivity of Solid Waste	461
Further Reading	462
