

CONTENTS AT A GLANCE

Preface.....	xi
Chapter One: Understanding Video and Audio	1
Chapter Two: The Language of Compression.....	25
Chapter Three: Best Practices.....	57
Chapter Four: Preprocessing.....	81
Interview with a Compressionist: John Howell	97
Chapter Five: Compression Tools.....	101
Interview with a Compressionist: Nico Puertollano	157
Chapter Six: Compressing for DVDs.....	161
Interview with a Compressionist: Ben Waggoner.....	203
Chapter Seven: Compressing for the Web	209
Interview with a Compressionist: Jim Rohner	239
Chapter Eight: Compressing for Mobile	243
Interview with a Compressionist: Ryanne Hodson	275
Chapter Nine: Compressing for Set-Top Boxes	279
Interview with a Compressionist: Andy Beach	301
Index	305

TABLE OF CONTENTS

Preface	xi
Chapter One: Understanding Video and Audio	1
Elements of Video.....	2
Frames and Fields.....	3
Benefits of Interlacing	4
Problems Caused by Interlacing.....	4
Progressive Scan Video	6
Resolutions	7
Aspect Ratio	9
Analog vs. Digital	12
How Compression Works	13
Lossless and Lossy Compression.....	15
Spatial (DCT) and Wavelet Compression	16
Quantization.....	17
Interframe and Intraframe Compression	18
Audio Compression	19
Evaluating Video for Compression	20
How Was the Video Shot?.....	21
How Was It Edited?	21
Who Is the Intended Audience?	22
Conclusion	23
Chapter Two: The Language of Compression	25
Players	26
QuickTime Player	27
Windows Media Player	31
Adobe Flash Player.....	32
RealPlayer	34
Other Video Players.....	36
Wrappers	38
Codecs	39
Descriptions of the Commonly Used Codecs.....	40
A Time and a Place for Everything.....	43
Delivery Codecs	44
Authoring Codecs	45
Legacy Codecs	45

Compression Parameters	47
Data Rates	48
VBR and CBR	48
Frame Rates	49
Frame Types	49
Aspect Ratios	51
Square and Nonsquare Pixels	53
Resolution	53
Online Delivery: Streaming vs. Download	54
Conclusion	56
Chapter Three: Best Practices	57
What Are Your Compression Needs?	58
Long-Form or Short-Form Content?	58
What Is Your Final Delivery Target?	58
How Is Your Content Delivered to You?	58
How Much Content Are You Compressing?	59
Is Compression All You're Doing?	60
Quality or Timeliness?	60
Are You a Content Owner or a Cog?	60
How Knowledgeable Is Your Client?	60
Equipment and Workflows for Different Scenarios	61
Encoding as an Editor	61
Encoding as a Compressionist	64
Automating the Encoding Process	65
Enterprise Systems: The Big Leagues	66
Essential Encoding Equipment	67
Hardware	67
Software	70
Productivity Tips	75
Minimizing Quality Loss Without Overdoing It	75
Stay Organized	76
File-Naming Conventions	77
Experimenting Can Be a Good Thing	78
Make Your Own Recipe Book	79
Mezzanine, or In-Between, Files	79
Archiving and Transcoding	80
Conclusion	80

Chapter Four: Preprocessing	81
Deinterlacing Video	82
Blend	83
Weave	83
Area-based	83
Motion Blur	83
Discard	83
Bob	84
Progressive Scan	84
Motion Compensation	84
Telecine and Inverse Telecine	85
Cropping	86
Scaling	87
Image Aspect Ratio Correction	89
Pixel Aspect Ratio Correction	89
Noise Reduction	90
Luma Adjustments	92
Gamma Correction	93
Brightness and Contrast	94
Chroma Adjustment	94
Saturation	94
Hue	94
Audio Preprocessing	95
Adjusting Volume	95
Noise Reduction	96
Conclusion	96
 Interview with a Compressionist: John Howell	 97
 Chapter Five: Compression Tools	 101
Adobe Media Encoder	102
What Does It Look Like?	103
How Does It Work?	105
What Makes It Special?	108
What Should You Watch Out For?	108
What Should You Remember?	108
QuickTime Pro	109
What Does It Look Like?	110
How Does It Work?	112

What Makes It Special?	117
What Should You Watch Out For?	117
What Should You Remember?	118
Compressor	119
What Does It Look Like?	120
How Does It Work?	121
What Makes It Special?	125
What Should You Watch Out For?	126
What Should You Remember?	126
Microsoft Expression Encoder	127
What Does It Look Like?	128
How Does It Work?	129
What Makes It Special?	133
What Should You Watch Out For?	133
What Should You Remember?	133
Squeeze Compression Suite	133
What Does It Look Like?	136
How Does It Work?	137
What Makes It Special?	142
What Should You Watch Out For?	143
What Should You Remember?	143
Episode Pro	144
What Does It Look Like?	144
How Does It Work?	146
What Makes It Special?	149
What Should You Watch Out For?	150
What Should You Remember?	150
Higher- and Lower-End Options	150
Less-Expensive Solutions	151
A Note About Enterprise Solutions	153
Conclusion	155

Interview with a Compressionist: Nico Puertollano 157

Chapter Six: Compressing for DVDs 161

What's a DVD?	162
Producing SD DVDs	162
SD Media	162
SD Codecs	165

What the Heck Is a VOB?	166
What's a Blu-ray Disc?	167
Producing Blu-ray Discs.....	169
Blu-ray Overview.....	171
Recording Blu-ray Discs	172
DVD Workflows	173
That Whole Bit Budget Thing.....	175
Recipes for Producing SD DVDs.....	178
Compression and DVD Studio Pro Markers.....	178
Rendering a DVD-Compatible File in Compressor	180
Creating an SD DVD in DVD Studio Pro.....	186
Recipes for Producing Blu-ray Discs.....	191
Working in Premiere Pro.....	192
Managing the Handoff.....	192
Producing an MPEG-2 Blu-ray-Compatible File in Adobe Media Encoder... ..	193
Producing an H.264 Blu-ray-Compatible File in the Adobe Media Encoder... ..	196
Creating a Blu-ray DVD in Encore.....	198
Conclusion	201

Interview with a Compressionist: Ben Waggoner..... 203

Chapter Seven: Compressing for the Web 209

The Early Days of Web Video	210
Modern Web Video.....	211
The Rise of Short-Form Video	211
More Broadband Penetration	212
Better Tools.....	213
Audience and Creator Are the Same Thing.....	214
Everybody Is a Star.....	215
Citizen Journalism	215
Traditional Media Catches On	216
Modern Web Tools and Formats.....	217
Recipes for Compressing Video for the Web	218
Encoding for YouTube from Episode Pro.....	219
Streaming Windows Media from Compressor	226
Progressive Download Flash Video.....	235
Conclusion	237

Interview with a Compressionist: Jim Rohner 239

Chapter Eight: Compressing for Mobile	243
How Little Video Became Big	244
Live Streaming to Mobile Devices	245
Download and (Maybe) Sync	246
Mobile Devices and Their Formats of Choice	249
Cell Phones	249
Smart Phones and Pocket PCs	252
Apple iPhone	253
Media Players	254
Recipes for Compressing Video for Mobile	259
3GP Files for Those Non-Smart Phones	259
Adding Chapter Markers to a Video Podcast	268
Conclusion	274
Interview with a Compressionist: Ryanne Hodson	275
Chapter Nine: Compressing for Set-Top Boxes	279
More Than Just Cable	280
Digital TV	280
IPTV	282
IP-Based STBs	284
Apple TV	284
Xbox 360	286
Vudu	288
Recipes for Compressing Video for STBs	289
Ripping a DVD with HandBrake	290
Standard-Definition Video for Xbox	296
Conclusion	299
Interview with a Compressionist: Andy Beach	301
Index	305
