

# Contents

Introduction	1
1. What Is the Universe Made Of?	3
2. What Is Dark Matter?	13
3. What Is Dark Energy?	27
4. What Is the Most Basic Element of Matter?	43
5. The Mysteries of Mass	59
6. Why Is Gravity So Different from the Other Forces?	77
7. What Is Space?	95
8. What Is Time?	117
9. How Many Dimensions Are There?	141
10. Can We Travel Faster Than Light?	161
11. Who Is Shooting Superfast Particles at the Earth?	185
12. Why Are We Made of Matter, Not Antimatter?	203
14. What Happened During the Big Bang?	227
15. How BIG Is the Universe?	253
16. Is There a Theory of Everything?	279
17. Are We Alone in the Universe?	309
A Conclusion of Sorts	335
