

Contents

Preface	xiii
About the Editors.....	xv
Contributing Authors	xix
1 Green Technologies for Sustainable Water Management: Introduction and Overview	1
Huu Hao Ngo, Wenshan Guo, Zhuo Chen, Rao Y. Surampalli, and Tian C. Zhang	
1.1 Introduction	1
1.2 Fundamentals	2
1.3 Current Status and Future Perspectives.....	6
1.4 Book Overview	24
1.5 Summary	31
References.....	31
2 Rainwater Harvesting in New South Wales, Australia	
Jaya Kandasamy, Benjamin Kus, and Saravanamuth Vigneswaran	
2.1 Introduction	35
2.2 Sources and Characteristics of Rainwater	36
2.3 Rainwater Treatment Technologies	56
2.4 Practical Implications	72
2.5 Acknowledgments.....	73
References.....	74
3 Stormwater Treatment Technology for Water Reuse.....	75
Olof J. Jonasson, Jaya Kandasamy, and Saravanamuth Vigneswaran	
3.1 Introduction	75
3.2 Sources and Characteristics of Stormwater.....	76
3.3 Water Quality Treatment Criteria.....	77
3.4 Conventional Stormwater Treatment Technologies in Stormwater Harvesting.....	86
3.5 High-Rate Stormwater Treatment Technologies.....	96
3.6 Conclusion	101
References.....	101

4 Sustainable Groundwater Management: Policy and Practice	
William Milne-Home	
4.1 Introduction	107
4.1 Global Groundwater Resources in a Changing Climate	110
4.3 Risk Management in Groundwater Development	118
4.4 Groundwater Models as Tools for Sustainable Groundwater Management	119
4.5 Groundwater Management and Mineral Resource Development.....	121
4.6 Case Studies of Aquifer Management Policy and Practice in Australia	130
4.7 Conclusions	135
References.....	136
5 District Water Cycle Management for Wastewater Reuse	
Xiaochang C. Wang and Li Luo	
5.1 Introduction	147
5.2 Concepts of Water Cycle Management	150
5.3 Methods for Water Cycle Analysis	156
5.4 Water Cycle Management for Quality Control	161
5.5 A Case Study.....	168
5.6 Summary	179
References.....	180
6 Green and Sustainable Natural Wastewater Treatment/ Disposal Technologies	187
Anushuya Ramakrishnan, Tian C. Zhang, and Rao Y. Surampalli	
6.1 Introduction	187
6.2 GSNWWTDTs: Concepts and Major Categories	188
6.3 Selected GSNWWTDTs: Applications and Current Issues	194
6.4 Implementation Strategies and Future Perspectives.....	220
6.5 Conclusions.....	222
6.6 Abbreviations	223
References.....	224
7 Green Technologies for Industrial Wastewater Treatment: Sustainable Attributes and Prospects of Anaerobic Granulation	231
Kuan Yeow Show, Yue Gen Yan, Duu Jong Lee, and Joo Hwa Tay	
7.1 Introduction	231
7.2 Merits and Limitations of Anaerobic Granulation.....	233
7.3 Advantages Over Aerobic Treatment.....	235
7.4 Energy Generation	240

7.5	Granular Sludge Reactors	243
7.6	Prospects	249
	References	250
8	Value-Added Products from Sludge	255
	Nouha Klai, Rajeshwar D. Tyagi, Rao Y. Surampalli, and Tian C. Zhang	
8.1	Introduction	255
8.2	PHA Production	256
8.3	Bio-Pesticides Production	263
8.4	Vermicomposting Biotechnology	270
8.5	Enzymes Production	278
8.6	Conclusions	285
8.7	Abbreviations	285
	References	286
9	Anaerobic Treatment of Wastewater	297
	Verma K. Akshaya, Rout R. Prangya, Bhunia Puspendu, and Dash R. Rajesh	
9.1	Introduction	297
9.2	Fundamentals of Anaerobic Treatment	298
9.3	Effects of Different Parameters	301
9.4	Anaerobic Suspended Growth Processes	305
9.5	Anaerobic Sludge Blanket Processes	315
9.6	Anaerobic Attached Growth Processes	320
9.7	Anaerobic Lagoons	323
9.8	Anaerobic Hybrid Reactors	326
9.9	Anaerobic Membrane Bioreactors	327
9.10	Kinetic Modeling of Anaerobic Treatment Processes	328
9.11	Summary	332
9.12	List of Nomenclature	333
9.13	Acknowledgments	334
	References	334
10	Constructed Wetlands for Wastewater Treatment: Sustainability Revolution in Water Management	337
	Jian Zhang, Haiming Wu, Jingtao Xu, Jinlin Fan, Hai Liu, and Shuang Liang	
10.1	Introduction	337
10.2	Constructed Wetlands for Wastewater Treatment	339
10.3	Sustainable Design–Plant Selection in Constructed Wetlands	345
10.4	Sustainable Operation–Enhancing Techniques Used in CWs	348

10.5	Sustainable Maintenance–Plant Reclamation and Recycling in Constructed Wetlands	355
10.6	Conclusion	367
	References.....	368
11	On-Site Treatment Systems: Biological Treatment and Nutrient Removal	375
	Jonathan W. C. Wong, Mayur B. Kurade, and Kuan Yeow Show	
11.1	Introduction.....	375
11.2	History of On-site Wastewater Treatment Systems.....	377
11.3	Need of On-site Treatment Systems.....	378
11.4	General Principles of On-Site Treatment Systems.....	380
11.5	Biological Nutrient Removal	383
11.6	Factors Affecting Nutrient Removal.....	388
11.7	Operational Issues Associated with BNR Processes.....	391
11.8	Treatment Processes and Systems.....	393
11.9	On-Site Treatment System Selection.....	409
11.10	Case Study.....	410
11.11	Summary.....	415
	References.....	415
12	Anammox: A Sustainable Technology for Nitrogen Removal and Water Recycling	419
	Jih-Gaw Lin, Achlesh Daverey, Kasturi Dutta, Wenshan Guo, and Huu Hao Ngo	
12.1	Introduction.....	419
12.2	History of Anammox	420
12.3	Microbial Physiology and Requirements for Growth.....	423
12.4	Integration of Anammox Process with Other Nitrogen Removal Processes	428
12.5	Inhibitors.....	434
12.6	Reactor Systems Used for Anammox Growth.....	438
12.7	Applications of Anammox and CANON/SNAD Processes.....	442
12.8	Summary.....	445
	References.....	445
13	Anionic Pollutant Removal by Biomass-Based Adsorbents	455
	Baoyu Gao and Xing Xu	
13.1	Introduction.....	455
13.2	Health Effects and Permissible Limits of Various Anions Species.....	456
13.3	Commercial Adsorbents for Anionic Pollutants Removal.....	457
13.4	Biosorbentsfor Anionic Pollutants Removal.....	461

13.5	Regeneration of Biosorbents.....	479
13.6	Conclusions and Future Perspectives.....	482
	References.....	483
14	Agricultural By-Products for Phosphorous Removal and Recovery from Water and Wastewater: A Green Technology.....	491
	Huu Hao Ngo, Wenshan Guo, Thi An Hang Nguyen, Rao Y. Surampalli, and Tian C. Zhang	
14.1	Introduction.....	491
14.2	Process Fundamentals.....	496
14.3	Applications.....	508
14.4	Recent Advances.....	524
14.5	Conclusion and Future Work.....	525
	References.....	526
15	Removal of Trace Organic Contaminants by Integrated Membrane Processes for Water Reuse Applications.....	533
	Faisal I. Hai, Abdulhakeem Alturki, Luong N. Nguyen, William E. Price, and Long D. Nghiem	
15.1	Introduction.....	533
15.2	Trace Organic Contaminants (TrOCs) in Aquatic Environments and Their Concerns.....	534
15.3	Water Reuse: Importance and Quality Control Issues	
15.4	Specific Treatment Technologies for TrOC Removal.....	538
15.5	Integrated Membrane Processes for Removal of TrOCs.....	558
15.6	Summary and Future Outlook.....	565
15.7	Acknowledgments.....	565
	References.....	565
16	Application of Green and Physico-Chemical Technologies in Treating Water Polluted by Heavy Metals.....	579
	Veeriah Jegatheesan, Harish Ravishankar, Li Shu, and Jinfeng Wang	
16.1	Introduction.....	579
16.2	Occurrences, Usage, Regulation and Disposal of Heavy Metals.....	582
16.3	Heavy Metal Pollution and its Impacts.....	588
16.4	Current Remediation Strategies for Heavy Metals.....	592
16.5	Green Technology for Heavy Metal Remediation.....	602
16.6	Towards Sustainable Water Management.....	608
16.7	Conclusion.....	609
16.8	Acknowledgments.....	609
	References.....	609
