

CONTENTS

GEOHAZARD CONSIDERATIONS FOR DESIGN AND CONSTRUCTION

IPG2013-1914..... **V001T01A001**

Analysis of Undermining and Lateral Erosion to Maximize Designs of River Crossing of Pipelines
Jorge Alejandro Avendaño and Manuel García López

IPG2013-1931..... **V001T01A002**

Determination of the Separation of Diverter Berms for Erosion Control
*Carlos Eduardo Rodríguez Pineda, Paula Andrea Rodríguez, and
Juan Sebastián Gutiérrez Gómez*

IPG2013-1960..... **V001T01A003**

Rerouting of a Pipeline due to Landslide Reactivation in an Andean Valley
Juan A. Bustinza, Ricardo J. Rocca, Marcelo E. Zeballos, and Roberto E. Terzariol

GEOHAZARD RISK ASSESSMENT AND PIPELINE INTEGRITY MANAGEMENT PLANNING

IPG2013-1907..... **V001T02A001**

Neotectonics in Hydrocarbon Transportation Lines Corridors: The Need of a Detailed Study
José Vicente Amórtegui

IPG2013-1923..... **V001T02A002**

A Rating Method for Assessment Risk at River Crossings
Martin Carnicero

IPG2013-1928..... **V001T02A003**

Pipeline Integrity Assessment and Mitigation Techniques in Unstable Soil Conditions Based on
Comparison of In Line Inspection Results
Maria F. Contreras, Carlos Vergara, Mauricio Pereira, Juan Diego Colonia, and Hugo García

IPG2013-1935..... **V001T02A004**

Susceptibility to Erosion of Pipeline Rights-of-Ways in Tropical Soils: Case of a Brazilian Pipeline
*Wanderley Camargo Russo, Jr., Alcindo Pereira dos Santos Filho,
Celso Rodrigues da Silveira Filho, Cláudio dos Santos Amaral, Maurício Martines Sales,
Carlos Alberto Lauro Vargas, Patrícia de Araújo Romão, and
Diego Tarley Ferreira Nascimento*

IPG2013-1942..... **V001T02A005**

A Proposed Geotechnical Risks Management Plan for Pipeline Integrity
Hudson Régis Oliveira

IPG2013-1950..... **V001T02A006**

Overview of Pipeline Geohazard Assessment Approaches and Strategies
Moness Rizkalla and R. S. (Rod) Read

IPG2013-1951..... **V001T02A007**

The Challenge of Crossing the Andes: A Data Base Analysis and Peru LNG Project Description
Ariel Gasca Cardenas and Edilberto Gutierrez

IPG2013-1971..... **V001T02A008**
The Assessment of Pipeline Integrity in Geohazard Areas Using ILI Data
Andy Young and Aaron Lockey

MONITORING, MITIGATION AND EMERGENCY REPAIRS

IPG2013-1909..... **V001T03A001**
Protection Works of Crossings River in the Camisea Pipeline Transport System (STD)
José Luis Tupayachi Beisaga and Emilio A. Hernández Chaupis

IPG2013-1911..... **V001T03A002**
Landslide Followed by a Leak at the Patagonian Andes, Argentina
Martin Carnicero and Pedro Hryciuk

IPG2013-1912..... **V001T03A003**
Technological Platform for the Monitoring of Natural Hazards in the OCENSA Pipeline System
Hugo García, Julián Corrales, Juan Diego Colonia, and Guillermo Jaramillo

IPG2013-1916..... **V001T03A004**
Monitoring and Control System in an Area of Geotechnical Risk Unstable in the Camisea Gas Transport System
Fernando A. Velásquez Martínez and Carlos Romero Acero

IPG2013-1917..... **V001T03A005**
Emergency Actions for Containing Side Slope to the Pipeline Range
Erica Varanda, José Pereira Soares, and Roberta Amorim Leite

IPG2013-1932..... **V001T03A006**
Protection of Pipelines Uncovered in Crossing River: A Case Study
Priscila Pereira Teixeira, Wanderley Camargo Russo, Jr., João Luiz Torralbo Quintana, and Ricardo Hoff

IPG2013-1946..... **V001T03A007**
Web-Based Virtual Seismic Monitoring for Pipelines
Douglas J. Nyman and Robert L. Nigbor

IPG2013-1969..... **V001T03A008**
Geotechnical Aspects of the Norandino Pipeline at Mal Paso
Juan A. Bustinza, Ricardo J. Rocca, José M. Ponce, and Rodolfo Reale

POSTER PAPERS

IPG2013-1908..... **V001T04A001**
Geohazard Prevention and Pipeline Deformation Monitoring Using Distributed Optical Fiber Sensing
Fabien Ravet, Carlos Borda, Etienne Rochat, and Marc Niklès

IPG2013-1918..... **V001T04A002**
Integrity Management Program for Geo-Hazards in the OCENSA Pipeline System
Hugo García, Carlos Nieves, and Juan Diego Colonia

IPG2013-1921..... **V001T04A003**
Integral Management of Risk: From a Corrective to a Preventive Approach
Edward Francisco Oliveros Montes and Favian Gustavo Luis Leynaud

IPG2013-1929..... **V001T04A004**

Soil-Pipeline Interaction Modeling and Assessment in Unstable Slopes
Mauricio Pereira, Maria Fernanda Contreras, and Carlos Vergara

IPG2013-1939..... **V001T04A005**

Emergency due to Rain Event on OSPAR Pipeline Right-of-Way: Lessons Learnt From the
Rapid Approach in March, 2011
Hudson Régis Oliveira and Henrique Xavier de Paula

IPG2013-1952..... **V001T04A006**

Asset Integrity Management: Geohazards
*René Pedraza Acuña, Daniel Mauricio Moncada Saavedra, Holman Fernando Rojas S.,
Pablo De Los Ríos Ibáñez, and John Freddy Caipa R.*

IPG2013-1953..... **V001T04A007**

Geotechnical Aspects of a Pipeline Rupture in Ecuador: Factors and Mitigation
James M. Oswell and Gualberto Chiriboga
