

CONTENTS

Materials Technology:

Deformation and Structural Performance

OMAE2015-41028	1
Fatigue Crack Growth Rate of Reeled Pipe in Sour Environments <i>Javad Safari, Ramgopal Thodla, Ian Merchant and John Hamilton</i>	
OMAE2015-41919	15
Reeling Pipeline Material Characterization: Testing, Material Modeling and Offshore Measurement Validation <i>Erwan Karjadi, Helen Boyd, Harm Demmink and Philippe Thibaux</i>	
OMAE2015-42367	26
Deformation Capacity of Weld Seam of the High Quality HFW Linepipe <i>Satoshi Igi, Satoru Yabumoto, Teruki Sadasue, Hisakazu Tajika and Kenji Oi</i>	
OMAE2015-42413	33
Effect of Reeling on Fracture Toughness Behavior of Welded API 5L X65 Line Pipe <i>Ramgopal Thodla, Robin Gordon and Feng Gui</i>	

Materials Technology:

Environmental Effect on Materials Performance

OMAE2015-41755	46
Hydrogen Induced Corrosion Cracking and Crevice Corrosion Behavior in Natural Sea Water of Super Duplex Seam Welded Tubes for Umbilicals Applications <i>Harold N. Evin, Jerome Peultier, Gilles Thevenet, Olivier Wagner, Henri Romazzotti and Jean-Philippe Roques</i>	
OMAE2015-42184	51
Evaluation of Stress Corrosion Cracking Susceptibility of the API 5L X70 Steel in Corn and Sugar Cane Ethanol Environments <i>Joseane O. Breitenbach, Tiago S. Renck, Pedro M. Moraes, Carlos E. Fortis Kwietniewski, Telmo R. Strohaecker, Gutemberg S. Pimenta and Ilson Palmieri Baptista</i>	

OMAE2015-42412	57
Effect of Reeling on Fatigue Crack Growth Behavior of Welded API5LX65 Line Pipe <i>Ramgopal Thodla, Robin Gordon and Feng Gui</i>	
OMAE2015-42414	69
Effect of Reeling on Sulfide Stress Corrosion Cracking of Welded API5LX65 Line Pipe <i>Ramgopal Thodla, Robin Gordon and Feng Gui</i>	

Materials Technology:

Fatigue Performance and Assessment

OMAE2015-41073	78
A Comparison of Frequency and Time Domain Fatigue Damage Using the Battelle Structural Stress Methodology <i>Brian E. Healy</i>	
OMAE2015-41412	89
Fatigue Evaluation Procedures for Multi-Axial Stress State in Welded Joints <i>Jeong K. Hong and Thomas P. Forte</i>	
OMAE2015-41740	98
Efficient Fatigue Testing of Tubular Joints <i>P. Thibaux, J. Van Wittenberghe, E. Van Pottelberg, M. Van Poucke, P. De Baets and W. De Waele</i>	
OMAE2015-41978	105
Practical Formula of the Shape Evolution of a Surface Crack Under Fatigue Loading <i>Yosuke Anai, Toshio Niwa and Koji Gotoh</i>	

Materials Technology:

Fracture Assessment and Control

OMAE2015-41052	110
ECA for Girth Welds of Offshore Pipelines: A Modified BS7910 Analytical Approach vs 3D FE Analyses	
<i>Roberto Bruschi, Valerio Leonzio, Angelo Ferrulli, Daniele Scarsciafratte and Enrico Torselletti</i>	
OMAE2015-41083	120
Rationalization of Toughness Requirements for Subsea Forgings	
<i>Amir Bahrami, Nick Zettlemyer and William Vangeertruyden</i>	
OMAE2015-41982	126
Practical Evaluation of the Strain Rate and Temperature Effects on Fracture Toughness of Steels	
<i>Koji Gotoh</i>	
OMAE2015-42161	131
Comparison of Numerical Methods for Strain Based ECA	
<i>Josef Navarro, Andrew Low and Thao (Joe) Tran</i>	

Materials Technology:

Integrity Assessment and Life Extension

OMAE2015-41020	137
Current and Future Tendency of Monitoring Technology for Integrity Assessment and Life Extension of the Hull Structure of Floating Production, Storage and Offloading (FPSO) Vessel	
<i>Shan Guan</i>	
OMAE2015-41533	144
Fatigue and Fracture Degradation Inspection of Offshore Structures and Mechanical Items: The State of the Art	
<i>Arvind Keprate and R. M. Chandima Ratnayake</i>	

OMAE2015-42032	157
Influence of Porosity on the Integrity Properties of Butt Welded Super Duplex Stainless Steel Umbilical Tube	
<i>Xiaoxue An, Alan Dobson and Chun Yip Chan</i>	
OMAE2015-42053	165
Heavy Wall Bends for Sour and Arctic-Alike Environment	
<i>Stefano Farè, Emanuele Paravicini Bagliani, Stefano Crippa, Fabio Zana and Philippe Darcis</i>	
OMAE2015-42275	172
An Experimental Investigation About Fatigue Crack Growth Rate of Aluminum Alloy Considering Various Mean Stress	
<i>Yoo Choi, Deok-Geun Kim, Jeong-Yeol Park, Kyoung-Seok Lee, Jae-Myung Lee and Myung-Hyun Kim</i>	

Materials Technology:

Performance and Application of Non-Metallics

OMAE2015-41050	180
Study of an Alternative Material for the Manufacture of Subsea Umbilical Hydraulic Hoses	
<i>Ilson Pasqualino, Marysilvia da Costa and Geovana Drumond</i>	
OMAE2015-41303	194
Whitening Generation in PVDF Under Cyclic Loading	
<i>Marlon Demaurir Cozine Silva, Daniele Alves Laurentino, Marysilvia Ferreira da Costa and Celio Albano da Costa Neto</i>	
OMAE2015-41424	198
Testing of Full Scale Composite Journal Bearings for Offshore Underwater Applications	
<i>R. C. Dragt, W. van den Heuvel, E. R. M. Gelinck and H. M. Slot</i>	
OMAE2015-41536	208
Effect of the Cooling Rate on Crystallinity and Tensile Strength of Two PVDF Grades	
<i>Caroline Slikta Velloso, Geovanio Lima de Oliveira, Christine Rabello Nascimento and Celio Albano da Costa Neto</i>	

OMAE2015-41537	212
Fluororubber Aged Under Continuous Compression Set at Elevated Temperatures	
<i>Carolina C. Mello and Marysilvia F. Costa</i>	

OMAE2015-41538	216
Evaluation of Aged PVDF by Instrumented Indentation Technique	
<i>Geovanio Lima de Oliveira, Celio A. Costa and Marysilvia F. Costa</i>	

Materials Technology:

Residual Stress Measurement and Analysis

OMAE2015-41319	220
Issues in Welding Residual Stress Model in Fitness for Service Assessment of Crack-Like Defect in Weld Area	
<i>Jeong K. (J. K.) Hong, Richard P. Brodzinski, Pedro M. Vargas, H. Chong Rhee, K-John Young and Jorge A. Penso</i>	

OMAE2015-41560	227
Characterization of Stress-Induced Residual Magnetic Field in Ferromagnetic Steels	
<i>Sheng Bao, Li Lin, Da Zhang and Meili Fu</i>	

OMAE2015-41990	237
Residual Stress Measurement, Finite Element Mapping and Flaw Simulation for a Girth Welded Pipe	
<i>Xavier Ficquet, Karim Serasli and Ed J. Kingston</i>
