

# Contents

## Section 1: Transport strategies

Intermodal transportation perspectives in South Africa: a case study of its application within the Gauteng Province and lessons learned for other metropolitan areas <i>C. B. Schoeman</i> .....	3
High-speed trains and tourists: what is the link? Evidence from the French and Spanish capitals <i>F. Pagliara, M. Delaplace &amp; J. M. Vassallo</i> .....	17
An applicable model for establishing sustainable traffic <i>Z. Vogrin, J. Golubić &amp; J. Golubić</i> .....	29
Goods logistics in the city centre of Brno <i>M. Pokorná &amp; K. Nedvědová</i> .....	41
The changes in airline network configurations (especially temporal configurations) in Europe <i>K. Nedvědová</i> .....	53
A travel plan as a tool for modifying university staff and students' travel behaviour towards sustainable practices <i>A. Khan, M. Mohammadzadeh &amp; A. Syam</i> .....	63

## Section 2: Public transport systems

Replanning public transport services in the case of budget reductions <i>L. D'Acerno, M. Gallo, L. Biggiero &amp; B. Montella</i> .....	77
The comparison of regional and urban transit bus driver distraction <i>K. A. D'Souza &amp; S. K. Maheshwari</i> .....	89

The value of information for the accessibility to concurrent transit system services <i>S. Carrese, S. Gori, L. Mannini &amp; M. Nigro</i> .....	101
Spatial analysis of the potential demand for public transport in the city of Jeddah, Saudi Arabia <i>M. Aljoufie</i> .....	113
Recapitalizing mini-bus taxis for effective public transportation in South Africa: the urban rural transport connection problem <i>M. P. Sebola</i> .....	125
Technology assessment of an electric urban bus system for Berlin <i>D. Göhlich, A. Kunith &amp; T. Ly</i> .....	137
The Santos–São Vicente LRV: pioneering medium capacity rail transport in Brazil <i>C. Macedo &amp; J. Waisman</i> .....	151
The integration of buses with a high level of service in the medium cities urban context <i>M. Losa, A. Pratelli &amp; C. Riccardi</i> .....	161
Utilization of the spare capacity of exclusive bus lanes based on a dynamic allocation strategy <i>X. Wang &amp; Q. Li</i> .....	173
Analysis of parking usage at the park and ride facility in Klang Valley, Malaysia <i>A. A. Kadar Hamsa, S. A. A. Syed Adnan &amp; U. A. Khalid</i> .....	179
Evaluating the satisfaction of passengers with different backgrounds for public transit <i>Shen Jinxing &amp; Li Wenquan</i> .....	195
A bi-objective model for the integrated frequency-timetabling problem <i>P. Ávila, F. Irarragorri &amp; R. Caballero</i> .....	209

### **Section 3: Environmentally friendly transport modes**

Do sparsely populated rural areas have potential for the use of electric vehicles? <i>A. Mann, K. Klopsch, L. Bieker, M. Wölki</i> .....	223
The environmental and economic effects of innovative measures in urban parcels delivery <i>M. E. Lopez Lambas &amp; S. Ricci</i> .....	235

The modes of government guidance for public bicycle operation and state-owned company operation: a case study of Hangzhou city in China <i>Q. Li</i> .....	247
Targeting the introduction of E-bikes based on behaviour change potential and user perception <i>M. Collado, A. H. H. Yu &amp; S. Pettersson</i> .....	255
Characteristics of bicycle travel in Japan and the basic concept of the Bicycle Travel Space Development Guideline <i>H. Kobayashi, H. Honda &amp; H. Yoshida</i> .....	267
Inland waterways transport for city logistics: a review of experiences and the role of local public authorities <i>M. Janjevic &amp; A. B. Ndiaye</i> .....	279
<b>Section 4: Pedestrians and traffic</b>	
The calibration of vehicle and pedestrian flow in Mangalore city using PARAMICS <i>S. K. Prusty, R. Phadnis &amp; R. P. Kunal</i> .....	293
Measuring walkability and its effect on light rail usage: a comparative study of the USA and Japan <i>J. Nawrocki, D. Nakagawa, R. Matsunaka &amp; T. Oba</i> .....	305
<b>Section 5: Environmental impact</b>	
Air pollution generated by road traffic in the city of Zagreb and measures proposed <i>J. Golubić, Z. Vogrin &amp; I. Lovrić</i> .....	319
An approach towards sustainable passenger mobility in urban areas: a life cycle perspective <i>H. Dura &amp; M. Weil</i> .....	333
The standing wave effect of a spiral spring in steel-spring floating-slab track on the noise in an urban transit carriage <i>L. Li, Y. Luo &amp; C. Geng</i> .....	345
<b>Section 6: Intelligent transport systems</b>	
A modal shift of palletized fast moving consumer goods to the inland waterways: a viable solution for the Brussels-Capital Region? <i>K. Mommens, P. Lebeau &amp; C. Macharis</i> .....	359

Analyzing tweets to enable sustainable, multi-modal and personalized urban mobility: approaches and results from the Italian project TAM-TAM <i>A. Candelieri &amp; F. Archetti</i> .....	373
A comparison of trajectories and vehicle dynamics acquired by high precision GPS and contemporary methods of digital image processing <i>K. Kozempel, H. Saul, M. Haberjahn &amp; C. Kaschwich</i> .....	381
A comparison of methods for detecting atypical trajectories <i>H. Saul, K. Kozempel &amp; M. Haberjahn</i> .....	393
Assessment of certain applications of Vehicle-to-Vehicle communication in an urban network <i>A. G. Hobeika &amp; T. Kim</i> .....	405
Preparing port container terminals for the future: making the most of Intelligent Transport Systems (ITS) <i>K. McGinley</i> .....	419
Simulation-based evaluation of I2V systems' impact on traffic performance: case study – COOPERS <i>A. P. Silvano, H. Farah &amp; H. N. Koutsopoulos</i> .....	429
 <b>Section 7: Transport safety and security</b>	
The evaluation of road safety performances in urban areas <i>S. Raicu, D. Costescu &amp; S. Burciu</i> .....	447
Identification assessment and the enhancement of accident data collection and analysis in KSA <i>A. M. Al-Atwai &amp; W. Saleh</i> .....	459
How are vehicles running in underground expressways? <i>Y. Wang, Y. Liu &amp; S. Zheng</i> .....	467
The safety problems met by powered two-wheelers in urban traffic <i>P. Van Elslande, J.-Y. Fournier &amp; C. Parraud</i> .....	479
Analysis of traffic safety for cyclists: the automatic detection of critical traffic situations for cyclists <i>S. Detzer, M. Junghans, K. Kozempel &amp; H. Saul</i> .....	491

## Section 8: Infrastructure

- The state of urban road infrastructure and the implementation of the FRSC speed limiting devices in Nigeria  
*J. J. Dukiya* ..... 505
- The constraint and liberation of urban morphology in Algiers  
*T. Shen*..... 517
- The peculiarities of travel cost measurement using intelligent technologies: theory and evidence  
*Ž. Bazaras, A. Česmulevičius, D. Micevičienė, O. Purvinis & A. Tautkus*..... 531

## Section 9: Experiences from emerging countries

- The Brazilian experience of flex-fuel vehicles technology: towards low carbon mobility  
*D. M. Vieira do Nascimento*..... 545
- Performance indicators for urban transport development in Nigeria  
*J. O. Onatere, C. Nwagboso & P. Georgakis*..... 555
- An analysis of user satisfaction on transit stop and station services on the Dar es Salaam–Arusha National Highway Road, Tanzania  
*S. S. Lushakuzi & D. G. Daudi*..... 569
- The sustainability of gravel roads as depicted by sub Saharan Africa's standard specifications and manuals for road works: Tanzania case study  
*R. R. Mwaipungu & D. Allopi*..... 581
- Sustainable transport solutions at a crossroads in developing countries: insights and perspectives  
*J. Chakwizira, P. Bikām & T. A. Adeboyejo*..... 593

## Section 10: Land use and transport integration

- Land use and transportation integration within the greater area of the North West University (Potchefstroom Campus), South Africa: problems, prospects and solutions  
*I. M. Schoeman*..... 607
- Impact analysis of urban structure and the economic sustainability of public transport in the city of Murcia (Spain)  
*S. García-Ayllón* ..... 619

Transit integrated housing in Cyprus <i>A. Savvides</i> .....	629
Urban renovation through the implementation of a high-speed railway station <i>C. Mota &amp; M. A. López</i> .....	641
Investigating the effects of improving public transport system linkage to spatial strategy on controlling urban sprawl: evidence from Surabaya City, Indonesia <i>L. Ambarwati, R. Verhaeghe, A. J. Pel &amp; B. van Arem</i> .....	653
The impact of transport management on the local activities system: the role of limited traffic zones <i>L. Biggiero</i> .....	669
<b>Author index</b> .....	679
