Introduction	1
A note on some key terms used in this book	7
1. Death and Disaster at Work	9
Introduction	9
Multiple fatalities at work in an historical context	9
Table 1.1 Some maritime and other transport disasters in five countries 1800-1970	11
Table 1.2 Some mine, factory, construction, refinery and oil rig disasters in five countries 1800-1970	12
The literature on work hazards and workplace disasters	16
James Reason: The Swiss cheese model and latent failures	17
Charles Perrow: Normal accidents and complex organisations	19
Andrew Hopkins: Repeat failures, ignored warnings and safety system flaws	22
The political economy of safety and disaster and critical regulatory literatures	24
Safety management systems and why they fail	27
Safety culture and safety climate	29
The methods and approach of this book	31
2. Setting the Context: Regulatory Frameworks in the Mining Industry in Five Countries 1970-2011	34
The reform of OHS and mine safety legislation 1970-2011	37
Legislative content: Key provisions in OHS and mining legislation	46
Systematic OHS management and OHS management systems	48
Risk assessment	52

Advisory bodies, worker consultation and rights	55
Jurisdiction-wide and industry tripartite advisory bodies	57
Workplace committees and health and safety representatives (HSRs)	59
Mining as a special case for more stringent requirements regarding worker input?	61
Sanctions, penalties and inspectoral powers	64
Other significant regulatory provisions	65
Hazard tracking and notification procedures	66
Ventilation, dust control and measures to reduce the risk of explosions and fires	68
Hours of work and fatigue	69
Qualifications of mine managers and other competencies	70
Mine plans or maps	71
Emergency and mine rescue requirements	72
Consideration of implementing a safety case regime in mining	73
Enforcement infrastructure and strategies	74
Mine inspectorate structure, resourcing, training and skill sets	74
Inspection protocols and strategic enforcement	77
Conclusion	82
3. Patterns of Disaster and Death: An Examination of Fatal Mine Incidents in Five Countries	83
Introduction	83
Fatal mining incidents reviewed	83
Table 3.1 Fatal mining incidents in five countries 1975-2011	87
1. Design, engineering, technical and maintenance failures	90
2. Prior warning or causes for alarm ignored	94
3. Failures in risk assessment	101
4. Failures in management systems and hazard management plans	106
5. Failures in auditing	115
6. Economic pressures compromising safety	117
7. Failures in regulatory oversight and inspection	121

8. Workers and others expressing concerns prior to the incident	131
9. Poor management-worker communication and trust	135
10. Emergency and rescue resources and procedures	137
Conclusion	141
4. Do These Patterns Apply to Fatal Incidents in Other Workplaces?	143
1. Design, engineering, technical and maintenance flaws	143
2. Warning signs that were ignored	147
3. Risk assessment, management systems and auditing failures	148
4. Economic pressures compromising safety	157
5. Failures in regulatory oversight	158
6. Prior worker or supervisor concerns and poor management-worker communication and trust	160
7. Limitations in emergency planning and rescue procedures	162
Conclusion	164
5. Learning from Failure: Some Practical Implications	167
Introduction	167
Explaining patterns: What does and does not explain them	167
Some tools for action	169
Priority checklist for assessing OHS management and preventing serious events	170
Engineering, design and maintenance flaws	170
Failure to heed warning signals	174
Flaws in risk assessment	176
Flaws in OHS management systems and work organisation	177
Flaws in system auditing	182
Economic and reward pressures compromising safety	184
Failures in regulatory oversight	186
Worker or supervisor concerns that were ignored	188
Poor worker-management communication and trust	189
Deficiencies in emergency and rescue procedures	193
Underlying risk factors	194
Best practice and learning from failure?	196

CONTENTS

6. Learning from Failure: Broader Policy Implications	197
Introduction	197
The political economy of safety and regulation	198
Australia	200
New Zealand	202
The United Kingdom	203
Canada	204
The United States	205
Broader lessons	208
Internal government processes, interest groups and the corrosion of reform	210
Interest groups and dominant safety discourse	213
Addressing the failure of organisations to learn	217
<i>Bibliography</i>	223
<i>Index</i>	243
