

# Table of Contents

Foreword	
Preface	
Acknowledgement	
<b>Part One Project Implementation Background</b> .....	<b>1</b>
Chapter 1 Locational Features of Dalian Lake.....	3
1.1 Geographical Location.....	3
1.2 Natural Conditions.....	5
1.3 Social Economic Conditions.....	7
Reference.....	10
Chapter 2 Regional Evolution of Dalian Lake.....	11
2.1 Regional Wetland Type.....	11
2.2 Regional Wetland Biology.....	12
2.2.1 Plankton.....	12
2.2.2 Aquatic vascular bundle plants.....	14
2.2.3 Zoobenthos.....	15
2.2.4 Fishes.....	16
2.2.5 Birds.....	17
2.2.6 Animals.....	17
2.2.7 Endangered rare species.....	17
2.2.8 Invasive species.....	17
2.3 Regional Wetland Evolution.....	17
2.3.1 Kinds of phytoplankton and evolution of dominant species.....	18
2.3.2 Kinds and quantity evolution of zooplankton.....	18
2.3.3 Type, quantity and distribution evolution of aquatic vascular bundle plants.....	19
2.3.4 Type, quantity distribution and evolution of benthonic organism.....	20
2.3.5 Composition, distribution characteristics and aquatic product types of fishes in Dianshan Lake.....	21
Reference.....	22
Chapter 3 Characteristics of Hydrologic Environment.....	24
3.1 Hydrologic Characteristics.....	24
3.2 Physical and Chemical Characteristics of Water Environment.....	26
3.3 Biological Characteristics of Water Environment.....	30
3.3.1 Density of phytoplankton.....	30
3.3.2 Chlorophyll <i>a</i> Content of Phytoplankton in Dalian Lake.....	30
3.3.3 Density of zooplankton.....	30
3.3.4 Density of zoobenthos and biomass in Dalian Lake.....	31

Chapter 4	Analysis on Pollution Source.....	32
4.1	Internal Source Pollution.....	32
4.2	Non-point Source Pollution.....	35
4.2.1	Farm chemical fertilizer pollution .....	35
4.2.2	Animal husbandry pollution .....	35
4.2.3	Fishery breeding pollution .....	35
4.3	Point Source Pollution.....	35
4.3.1	Pollution by rural life.....	35
4.3.2	Pollution by industries .....	36
	Reference.....	36
<b>Part Two</b>	<b>Project Planning, Design and Construction.....</b>	<b>37</b>
Chapter 5	Wetland Restoration Strategy .....	39
5.1	Evaluation on Status of Dalian Lake Wetland .....	39
5.1.1	Analysis on ecological functions of Dalian Lake wetland .....	39
5.1.2	Integrated evaluation on status quo of Dalian Lake wetland.....	42
5.2	Wetland Restoration Thinking .....	43
5.2.1	Effect after Dalian Lake wetland is rehabilitated .....	43
5.2.2	Restoration strategy of Dalian Lake wetland.....	45
5.2.3	Management measures of wetland.....	46
5.3	Philosophy and Principle for Planning and Designing on Wetland Restoration Project .....	47
5.3.1	Design philosophy of wetland restoration .....	47
5.3.2	Design principle of wetland restoration.....	48
5.4	Overall Planning for Wetland Restoration Project.....	48
5.4.1	Project and its significance .....	48
5.4.2	Project planning objective and overall thinking .....	50
5.4.3	Planning content and scale of project .....	51
5.4.4	Anticipated effect of project .....	51
	Reference.....	51
Chapter 6	Wetland Restoration Project Layout and Subarea Design.....	52
6.1	General Engineering Layout .....	52
6.2	Engineering Subarea Design.....	52
6.2.1	Design of wetland restoration and reconstruction area.....	52
6.2.2	Design of forest wetland cultivation area .....	52
6.2.3	Design of shoal wetland restoration and diversity conservation area .....	52
6.3	Water Conservation and Earthwork Design of the Project .....	52
6.3.1	The work conservation design of the project.....	52
6.3.2	Earthwork project .....	52
Chapter 7	Other Designs for Wetland Restoration Project .....	52
7.1	Construction Organization Design.....	52
7.1.1	Engineering conditions .....	52
7.1.2	Drained waters in construction period.....	52
7.1.3	Construction methods .....	52

7.1.4	Construction layout.....	77
7.1.5	Soil balance.....	78
7.1.6	Construction area.....	79
7.1.7	Construction progress.....	79
7.1.8	The main machinery equipment for the construction.....	80
7.1.9	The main technical and economic indexes for the construction.....	80
7.2	Environment Protection Design.....	80
7.2.1	Environment protection goals.....	80
7.2.2	Environment protection standard.....	81
7.2.3	Analysis and appraisal for the affection of project construction on environment.....	81
7.2.4	Environment protection design.....	84
7.2.5	Environmental management and monitoring plan.....	86
7.3	Water and Soil Conservation Design.....	87
7.3.1	Design basis.....	87
7.3.2	Fundamental principle.....	87
7.3.3	The status quo of water and soil loss.....	88
7.3.4	Earthwork balance.....	88
7.3.5	The responsibility scope and subarea of water and soil loss prevention and control.....	88
7.3.6	The analysis of the affection of development and construction activities on water and soil loss.....	89
7.3.7	The goal of water and soil loss prevention and control.....	90
7.3.8	Measures of water and soil loss prevention and control.....	90
7.3.9	Water and soil loss monitoring.....	92
7.4	Project Management and Maintenance.....	92
7.4.1	Management institution and personnel composition.....	92
7.4.2	Management scope and contents.....	93
7.4.3	Water quality monitoring and biological investigation.....	93
7.4.4	Annual operation and management cost.....	94
7.4.5	Project operation and management.....	94
7.4.6	Planting and management methods of wetland plants.....	95
7.4.7	Management laws and regulations.....	98
Chapter 8	Construction and Management of the Project.....	99
8.1	Construction Overview of the Project.....	99
8.1.1	Basic state of the project.....	99
8.1.2	Construction characteristics of the project.....	99
8.1.3	Overall construction layout.....	99
8.2	Construction Organization and On-site Management.....	100
8.2.1	Construction organization structure.....	100
8.2.2	Construction on-site management.....	101
8.3	Construction Solution of the Project.....	102
8.3.1	Main construction procedure.....	102
8.3.2	Construction preparation and temporary facilities.....	102
8.3.3	On-site clean up.....	103

8.3.4	Earthwork digging and refilling.....	1
8.3.5	Quick percolation system filling.....	1
8.3.6	Plant planting.....	1
8.4	Construction Progress and Guarantee System of the Project.....	1
8.4.1	Construction progress and the goals of construction period.....	1
8.4.2	Quality guarantee system and guarantee measures of the project.....	1
8.4.3	Safety guarantee system and safety guarantee measures.....	1
8.4.4	Technical measures of the construction in winter and monsoon.....	1
8.4.5	On-site civilized construction measures.....	1
8.4.6	Construction management and others.....	1
8.5	Supervision of the Project.....	1
8.5.1	Supervision goals and guidance.....	1
8.5.2	Supervision institution.....	1
8.5.3	Task and method of investment control.....	1
8.5.4	Tasks and methods of progress control.....	1
8.5.5	The tasks and methods of quality control.....	1
8.5.6	The supervision method of defect responsibility period.....	1

**Part Three Effect Monitoring and Appraisal ..... 1**

**Chapter 9 Wetland Water Quality Monitor and Appraisal ..... 1**

9.1	The Water Quality Monitoring Layout and Appraisal Methods of the Project.....	1
9.1.1	Monitoring layout and time.....	1
9.1.2	Water quality monitoring and appraisal methods.....	1
9.2	The Monitoring Results of the Water Quality of the Project.....	11
9.2.1	The physical property of the water.....	11
9.2.2	The chemical property of water.....	12
9.2.3	The biological nature of water.....	13
9.3	Other Monitoring Results of Wetland.....	13
9.3.1	Monitoring results from commissioned unit.....	13
9.3.2	Monitoring results from other units.....	13

Reference..... 13

**Chapter 10 Benefit Appraisal of the Wetland ..... 13**

10.1	The Ecological and Environmental Benefit of the Project.....	13
10.1.1	Ecological benefit.....	13
10.1.2	Environmental benefit.....	13
10.2	Social and Economic Benefit of the Project.....	13
Reference.....		13

**Appendix ..... 13**

Appendix 1..... 13

Appendix 2..... 13

Attachment 2.1	Environment Quality Standard for Surface Water of the People's Republic of China.....	13
----------------	---	----

---

Attachment 2.2	The Implementation Guidelines of the Protective Regulations of the Water Source of the Upper Reaches of Huangpu River in Shanghai .....	159
Appendix 3 .....		169
Postscript & Testimonials .....		199
