

# Contents

1	Fundamentals of Mathematics and Physics .....	1
1.1	Calculus .....	1
1.1.1	Differential and Derivative .....	2
1.1.2	Integral .....	5
1.1.3	Laplace Operator .....	7
1.2	Units .....	8
1.2.1	Unit Systems .....	9
1.2.2	Conversion of Units .....	10
1.2.3	Graphics of Physical Quantity .....	11
	Exercises .....	13
2	Thermodynamics .....	14
2.1	Thermodynamic Properties .....	14
2.2	Energy .....	18
2.2.1	Heat and Work .....	20
2.2.2	Energy and Power .....	21
2.3	System and Process .....	21
2.4	Phase Change .....	24
2.5	Property Diagrams .....	29
2.5.1	Pressure-Temperature ( $p$ - $T$ ) Diagram .....	29
2.5.2	Pressure-Specific Volume ( $p$ - $v$ ) Diagram .....	29
2.5.3	Pressure-Enthalpy ( $p$ - $h$ ) Diagram .....	30
2.5.4	Enthalpy-Temperature ( $h$ - $T$ ) Diagram .....	31
2.5.5	Temperature-Entropy ( $T$ - $s$ ) Diagram .....	31
2.5.6	Enthalpy-Entropy ( $h$ - $s$ ) Diagram or Mollier Diagram .....	32
2.6	The First Law of Thermodynamics .....	32
2.6.1	Rankine Cycle .....	35
2.6.2	Utilization of the First Law of Thermodynamics in Nuclear Power Plant .....	36

2.7	The Second Law of Thermodynamics .....
2.7.1	Entropy .....
2.7.2	Carnot's Principle .....
2.8	Power Plant Components .....
2.8.1	Turbine Efficiency .....
2.8.2	Pump efficiency .....
2.8.3	Ideal and Real Cycle .....
2.9	Ideal Gas Law .....
	Exercises .....
<b>3</b>	<b>Heat Transfer .....</b>
3.1	Heat Transfer Terminology .....
3.2	Heat Conduction .....
3.2.1	Fourier's Law of Conduction. ....
3.2.2	Rectangular .....
3.2.3	Equivalent Resistance .....
3.2.4	Cylindrical .....
3.3	Convective Heat Transfer .....
3.3.1	Convective Heat Transfer Coefficient .....
3.3.2	Overall Heat Transfer Coefficient .....
3.4	Radiant Heat Transfer .....
3.4.1	Thermal Radiation .....
3.4.2	Black Body Radiation .....
3.4.3	Radiation Configuration Factor .....
3.5	Heat Exchangers .....
3.6	Boiling Heat Transfer .....
3.6.1	Flow Boiling .....
3.6.2	Departure from Nucleate Boiling and Critical Heat F .....
3.7	Heat Generation .....
3.7.1	Total Power of Reactor Core .....
3.7.2	Flatten of Power .....
3.7.3	Hot Channel Factor .....
3.7.4	Decay Heat .....
	Exercises .....
<b>4</b>	<b>Fluid Flow .....</b>
4.1	Continuity Equation .....
4.2	Laminar and Turbulent Flow .....
4.2.1	Reynolds Number and Hydraulic Diameter .....

4.2.2	Flow Velocity Profiles	92
4.2.3	Average (Bulk) Velocity	93
4.2.4	Viscosity	93
4.3	Bernoulli's Equation	93
4.3.1	Venturi Meter	95
4.3.2	Extended Bernoulli's Equation	96
4.4	Head Loss	97
4.4.1	Frictional Loss	97
4.4.2	Minor Losses	98
4.5	Natural Circulation	100
4.5.1	Thermal Driving Head	100
4.5.2	Conditions Required for Natural Circulation	101
4.6	Two-Phase Fluid Flow	102
4.6.1	Two-Phase Friction Multiplier	103
4.6.2	Flow Patterns	103
4.6.3	Flow Instability	104
4.7	Some Specific Phenomenon	105
4.7.1	Pipe Whip	105
4.7.2	Water Hammer and Steam Hammer	106
	Exercises	107
<b>5</b>	<b>Electrical Science</b>	<b>109</b>
5.1	Basic Electrical Theory	109
5.1.1	The Atom	109
5.1.2	Electrostatic Force	110
5.1.3	Coulomb's Law of Electrostatic Charges	111
5.2	Electrical Terminology	112
5.3	Ohm's Law	116
5.4	Methods of Producing Voltage (Electricity)	116
5.4.1	Electrochemistry	116
5.4.2	Static Electricity	117
5.4.3	Magnetic Induction	118
5.4.4	Piezoelectric Effect	119
5.4.5	Thermoelectricity	119
5.4.6	Photoelectric Effect	120
5.4.7	Thermionic Emission	122
5.5	Magnetism	123
5.5.1	Magnetic Flux	124
5.5.2	Electromagnetism	125

5.5.3	Magnetomotive Force .....	
5.5.4	Magnetic Field Intensity .....	
5.5.5	Permeability and Reluctance .....	
5.5.6	Magnetic Circuits .....	
5.5.7	<i>BH</i> Magnetization Curve .....	
5.5.8	Magnetic Induction .....	
5.5.9	Faraday's Law of Induced Voltage .....	
5.6	DC Theory .....	
5.6.1	DC Sources .....	
5.6.2	Resistance and Resistivity .....	
5.6.3	Kirchhoff's Law .....	
5.6.4	Inductors .....	
5.6.5	Capacitor .....	
5.6.6	DC Generators .....	
5.6.7	DC Motors .....	
5.7	Alternating Current .....	
5.7.1	Development of a Sine-Wave Output .....	
5.7.2	Basic AC Reactive Components .....	
5.7.3	AC Power .....	
5.7.4	Three-Phase Circuits .....	
5.7.5	AC Generator .....	
5.7.6	AC Motor .....	
5.7.7	Transformer .....	
	Exercises .....	
6	Instrumentation and Control .....	
6.1	Temperature Detect .....	
6.1.1	Resistance Temperature Detector .....	
6.1.2	Thermocouple .....	
6.1.3	Temperature Detection Circuitry .....	
6.2	Pressure Detector .....	
6.2.1	Bellows-Type Detectors .....	
6.2.2	Bourdon Tube-Type Detectors .....	
6.2.3	Resistance-Type Transducers .....	
6.3	Level Detector .....	
6.3.1	Gauge Glass .....	
6.3.2	Ball Float .....	
6.3.3	Conductivity Probe .....	
6.3.4	Differential Pressure Level Detectors .....	

6.4	Flow Measurement .....	213
6.4.1	Venturi Flow Meter .....	214
6.4.2	Pitot Tube .....	215
6.4.3	Rotameter .....	215
6.4.4	Steam Flow Measurement .....	216
6.5	Position Measurement .....	217
6.5.1	Synchro Equipment .....	217
6.5.2	Limit Switch .....	218
6.5.3	Reed Switch .....	219
6.5.4	Potentiometer .....	219
6.5.5	Linear Variable Differential Transformer .....	220
6.6	Radioactivity Measurement .....	221
6.6.1	Radiation Type .....	222
6.6.2	Gas Ionization Detector .....	225
6.6.3	Proportional Counter .....	228
6.6.4	Ionization Chamber .....	231
6.6.5	Geiger-Miller Counter .....	237
6.6.6	Scintillation Counter .....	238
6.6.7	Gamma Spectroscopy .....	241
6.6.8	Miscellaneous Detectors .....	243
6.6.9	Circuitry and Circuit Elements .....	245
6.6.10	Detect of Neutron Flux in Reactor .....	248
6.6.11	Nuclear Power Measurement .....	251
6.7	Principles of Process Control .....	253
6.7.1	Control Loop Diagrams .....	256
6.7.2	Two Position Control Systems .....	261
6.7.3	Proportional Control .....	262
6.7.4	Integral Control Systems .....	266
6.7.5	Proportional Plus Integral Control Systems .....	269
6.7.6	Proportional Plus Derivative Control Systems .....	270
6.7.7	Proportional-Integral-Derivative Control Systems .....	273
6.7.8	Controllers and Valve Actuators .....	274
	Exercises .....	280
7	Chemistry and Chemical Engineering .....	281
7.1	Chemical Basis .....	281
7.1.1	The Atom Structure .....	281
7.1.2	Chemical Elements and Molecules .....	283
7.1.3	Avogadro's Number .....	287
