Chapter 1 Introduction	1
Chapter 2 Geological Setting of Yunnan during the Ordovician and Silurian	5
2.1 Eastern Yunnan	6
2.2 Central and southern Yunnan	7
2.3 Western Yunnan	10
2.4 Notes on the palaeogeography of Yunnan during the Ordovician and Silurian	10
Chapter 3 Lithostratigraphy of the Ordovician and Silurian Strata in Yunnan Province	12
3.1 Sibumasu Terrane	12
3.1.1 Luxi Region	12
Dakuangshan Formation	12
Luxi Formation	13
Wanyaoshu Formation	13
3.1.2 Baoshan Region	14
Yanqing Formation	14
Mantang Formation	15
Laojianshan Formation	16
Shihtien Formation	17
Pupiao Formation	18
Jenhochiao Formation	21
"Upper Jenhochiao Formation"	22
"Lichaiba Formation"	24
Niushiping Formation	25
3.2 Indochina Block	27
3.2.1 Dali Region	27
Haidong, Hsiangyang, Nanbanhe and Dapingzi formations	27
3.2.2 Mojiang-Lüchun-Jinping Region	27
Manbo Formation	27
Shuiqing Formation	28
3.3 South China Plate	30
3.3.1 Kunming-Qujing Region	30
Tangchi Formation	30
Hungshihyen Formation	32
Qiaojia Formation	34
Daqing Formation	36
Kuanti, Miaokao, Yulungssu and Xishancun formations	36
3.3.2 Wenshan Region	36

3.3.3	Qiaojia-Zhaotong Region	37
Chapter 4	Biostratigraphy of the Ordovician and Silurian of Yunnan Province	39
4.1	Baoshan and Luxi regions	39
4.2	Dali and Mojiang regions	45
4.3	Kunming-Qujing and Qiaojia-Zhaotong regions	47
4.3.1	Kunming-Qujing Region	47
4.3.2	Qiaojia-Zhaotong Region	48
Chapter 5	Route Log of the Field Excursion	50
5.1	Notes on the excursion	50
5.2	Itinerary of the post-conference field excursion in Yunnan, Southwest China (Aug. 16–Aug. 22, 2014)	51
5.3	Field excursion across Yunnan: route log and stops	52
5.3.1	The Silurian of Qujing, eastern Yunnan, China	52
Introduction	52
Stop 1. The Chongjiawan Cambrian-Silurian boundary section	54
Stop 2. The Longwangmiao quarry—the Guandi Member of the Kuantu Formation	61
Stop 3. The Hongmiao section of the Miaokao and Yulongssu formations	66
The Silurian-Devonian boundary (SDB) in the Qujing area, eastern Yunnan	69
5.3.2	Lufeng Dinosaur Valley—National Geopark	73
5.3.3	Ordovician of Dali and the Cangshan Geopark	76
General information and geological setting	76
Introduction to the Haidong section	82
Stop 1. Base of the Hsiangyang Formation	84
Stop 2. Bivalves and brachiopods of the Hsiangyang Formation	84
Stop 3. Trilobites, bivalves, brachiopods, crinoids and bryozoans of the Hsiangyang Formation	88
Stop 4. Mount Cangshan National Geopark	90
5.3.4	Ordovician and Silurian of the Baoshan Region	92
General information	92
Introduction to the Laojianshan section	94
Stop 1. Laojianshan Formation—Ordovician shallow marine red beds	95
Stop 2. Shitien Formation (Darriwilian)	100
Stop 3. Uppermost Pupiao to lowermost Jenhochiao formations (late Katian to earliest Silurian)	105
Stop 4. Graptolites of the Jenhochiao Formation (Hirnantian to Aeronian)	107
Stop 5. “Lichaiba Formation” (uppermost Telychian to Wenlock)	110
Stop 6. Basal Niushiping Formation (Ludlow)	114
Stop 7. Uppermost Niushiping Formation (Pridoli) and the Silurian-Devonian boundary	116
5.3.5	Tengchong National Volcanic Geopark	119
Stop 1. Volcanoes	119
Stop 2. Clusters of hot springs	119
References	121
