

Table of Contents

Preface

All-Cellulose Composites Derived from Natural Plant Fibers

Juan Francisco Delgado, Jimena Bovi, María Laura Foresti, Celina Bernal..... 1

Innovations in Natural Fibre Reinforced Composites for Improved Performance

N. Gokarneshan, PG Anandhakrishnan, R. Sasirekha, Obulam Vidya Sagar, D. Haritha, and K.M. Pachiyappan 37

Next Generation Biodegradable Material for Dental Teeth and Denture base Material: Vegetable Peels as an Alternative Reinforcement in Polymethylmethacrylate (PMMA)

Anirudh Kohli, Arun Y Patil, Mahesh Hombalmath 77

Microstructure Characteristics of Cellulose Fibers in Cement Paste and Concrete - A Review

Syed Habibunnisa, Ruben Nerella and Madduru Sri Rama Chand 96

Application of Surface Modification Routes to Coconut Fiber for its Thermoplastic-Based Biocomposite Materials

Ümit Tayfun, Mehmet Doğan..... 11

Durability Against Fatigue and Moisture of Natural Fibre Composite

Bidita Salahuddin, Zhao Sha, Shazed Aziz, Shaikh N. Faisal, Mohammad S. Islam .. 128

Resol-Vegetable Fibers Composites

Wei Ni, Lingying Shi 154

Measurement of Thermal Conductivity of Natural Fiber Composites

K. Ramanaiah, Srinivas Prasad Sanaka, A.V. Ratna Prasad, K. Hemachandra Reddy 199

Natural Fiber and Biodegradable Plastic Composite

Manoj Mathad, Anirudh Kohli, Mrutyunjay Adagimath, Arun Patil, Anish Khan..... 209

Polymer Natural Fibre Composites and its Mechanical Characterization

Manju Sri Anbupalani, Chitra Devi Venkatachalam, P. Manjula..... 238

Glass and Natural Fiber Composite: Properties and Applications

Guurvatar Singh Mann, Anish Khan, Abdullah M Asiri 256

Pineapple Natural Fibre Composite: Extraction, Mechanical Properties and Application

Anirudh Kohli, Manoj Mathad, Arun Patil, Anish Khan..... 282
