

Table of Contents

Preface.....	xv
Acknowledgment.....	xix
Chapter 1	
Artificial Intelligence-Assisted Building Information Modelling.....	1
<i>Muhammad Abubakar Tariq, International Islamic University, Islamabad, Pakistan</i> <i>Shiraz Ahmed, GIK Institute of Engineering, Sciences, and Technology, Pakistan</i> <i>Erum Aamir, National University of Sciences and Technology, Pakistan</i> <i>Fahad Iqbal, GIK Institute of Engineering, Sciences, and Technology, Pakistan</i> <i>Muhammad Noman, International Islamic University, Islamabad, Pakistan</i>	
Chapter 2	
Deep Learning-Based Damage Inspection for Concrete Structures	19
<i>Jiangpeng Shu, Center for Balance Architecture, College of Civil Engineering and</i> <i>Architecture, Zhejiang University, China</i> <i>Zhenfen Jin, The Architectural Design and Research Institute, Zhejiang University, China</i>	
Chapter 3	
Machine Learning Applications for Vibration-Based Structural Health Monitoring.....	46
<i>Zeinep Achmet, National Technical University of Athens, Greece</i> <i>Michalis Fragiadakis, National Technical University of Athens, Greece</i>	
Chapter 4	
Use of AI and ML Algorithms in Developing Closed-Form Formulae for Structural Engineering Design.....	73
<i>George Markou, University of Pretoria, South Africa</i> <i>Nikolaos Bakas, National Infrastructures for Research and Technology-GRNET, Greece</i> <i>Ashley Megan van der Westhuizen, University of Pretoria, South Africa</i>	
Chapter 5	
A Predictive Regression Model for the Shear Strength of RC Knee Joint Subjected to Cyclic Load	106
<i>Azam Khan, National University of Sciences and Technology, Pakistan</i> <i>Moiz Tariq, National University of Science and Technology, Pakistan</i>	

Chapter 6

Predicting the Fundamental Period of Light-Frame Wooden Buildings by Employing Bat Algorithm-Based Artificial Neural Network	139
--	-----

Mehdi Nikoo, Department of Building, Civil and Environmental Engineering, Concordia University, Montréal, Canada

Ghazanfarah Hafeez, Department of Building, Civil and Environmental Engineering, Concordia University, Montréal, Canada

Ghasan Doudak, Department of Civil Engineering, University of Ottawa, Ottawa, Canada

Vagelis Plevris, Department of Civil and Architectural Engineering, Qatar University, Doha, Qatar

Chapter 7

Shear Capacity of RC Elements With Transverse Reinforcement Through a Variable-Angle Truss Model With Machine-Learning-Calibrated Coefficients	163
--	-----

Dario De Domenico, University of Messina, Italy

Giuseppe Quaranta, Sapienza University of Rome, Italy

Qingcong Zeng, Zhejiang University, China

Giorgio Monti, Sapienza University of Rome, Italy

Chapter 8

Groundwater Modelling of the Saq Aquifer Using Artificial Intelligence and Hydraulic Simulations	181
--	-----

Ghufran Ahmed Pasha, Department of Civil Engineering, University of Engineering and Technology, Taxila, Pakistan

Abdul Razzaq Ghumman, Department of Civil Engineering, College of Engineering, Qassim University, Buraidah, Saudi Arabia

Mohammed R. Almuhaylan, Department of Civil Engineering, College of Engineering, Qassim University, Buraidah, Saudi Arabia

Md. Shafiquzzaman, Department of Civil Engineering, College of Engineering, Qassim University, Buraidah, Saudi Arabia

Ibrahim Saleh Al-Salamah, Department of Civil Engineering, College of Engineering, Qassim University, Buraidah, Saudi Arabia

Husnain Haider, Department of Civil Engineering, College of Engineering, Qassim University, Buraidah, Saudi Arabia

Afzal Ahmed, Department of Civil Engineering, University of Engineering and Technology, Taxila, Pakistan

Riaz Akhtar Khan, Department of Civil Engineering, LEADS University, Lahore, Pakistan

Chapter 9

Reliability Analysis of RC Code for Predicting Load-Carrying Capacity of RCC Walls Through ANN	216
--	-----

Afaq Ahmad, University of Engineering and Technology, Taxila, Pakistan

Dimitrios M. Cotsovos, Heriot Watt University, UK

Chapter 10

The Value Proposition of Machine Learning in Construction Management: Exploring the Trends in Construction 4.0 and Beyond..... 247

Marina Marinelli, National Technical University of Athens, Greece
Mukund Janardhanan, University of Leicester, UK

Chapter 11

Explainable Safety Risk Management in Construction With Unsupervised Learning..... 273

Fatemeh Mostofi, Department of Civil Engineering, Karadeniz Technical University, Turkey
Vedat Toğan, Department of Civil Engineering, Karadeniz Technical University, Turkey

Chapter 12

Enhanced Stochastic Paint Optimizer for Nonlinear Design of Fuzzy Logic Controllers in Steel Building Structures for the Near-Fault Earthquakes..... 306

Mahdi Azizi, Near East University, Cyprus
Siamak Talatahari, University of Technology, Sydney, Australia

Compilation of References 336
