

Contents

Dynamic Analysis of Vehicle Performance for Changes to Rear Axle Housing	1
Diane L. Peters, Yaomin Dong, and Vimal Patel	
A Comparative Study of Crack Branching in Glass Using Photoelasticity, Digital Image Correlation and Digital Gradient Sensing Techniques	9
Sivareddy Dondeti and Hareesh V. Tippur	
Attenuation of Hand-Transmitted Vibration Application on Weed Wacker	17
Ammar Mohammed, John Miller, Jassim Alhamid, and Changki Mo	
Effect of Loading Rate on Fracture Behavior of Carbon Fiber Reinforced Polymer Composites	21
Chengyun Miao and Hareesh V. Tippur	
Experimental Measurements of Overload and Underloads on Fatigue Crack Growth Using Digital Image Correlation	29
Paul A. Lara, Hugh A. Bruck, and Felix J. Fillafer	
Exploring Microstructural Descriptors in Elastomeric Foams Using Digital Image Correlation and Statistical Analysis	41
Robert F. Waymel, Sharlotte L. B. Kramer, Dan S. Bolintineanu, Enrico C. Quintana, and Kevin N. Long	
Effect of Crystallization on Mechanical Properties of CFRTP	45
Takenobu Sakai and Nur Safiah Binti Shamsudim	
Mode I Traction-Separation Relationship of Sylgard 184: Aluminum Interface Using Rigid Double Cantilever Beam Analysis	47
Sreehari Rajan, Michael A. Sutton, William McMakin, Mike Steinzig, Laura Inkret, Elsa Compton, and Amanda Olsen	
Solid Cylindrical Bar Torsion for Characterizing Shear Plastic Deformation and Failure	53
Wei-Yang Lu, Helena Jin, Jay Foulk, and Jakob Ostien	
Mixed Mode (Mode I/III) Dynamic Fracture Initiation Toughness of Aluminum Alloy	59
Ali F. Fahem and Addis Kidane	
Incremental 1D Viscoelastic Model for Residual Stress and Shape Distortion Analysis During Composite Manufacturing Processes	65
Sibin Saseendran, Daniel Berglund, Janis Varna, and Patrik Fernberg	
Investigating How Microstructural Features Influence Stress Intensities in Pitting Corrosion	77
Patrick Brewick and Andrew Geltmacher	
Evaluating the Influence of Size Effects on Load-Displacement Behavior and Failure in Threaded Fasteners, Part I: Experimental Testing	87
Thomas R. Bosiljevac, Yuriy B. Veytskin, John P. Mersch, Jeffrey A. Smith, Peter W. Grimmer, and Donald F. Susan	

Investigation of Dynamic Fracture Behavior of Additively Manufactured Al-10Si-Mg Using High-Speed Synchrotron X-ray Imaging	91
Niranjan D. Parab, Lianghua Xiong, Zherui Guo, Xianghui Xiao, Weinong Chen, Wesley Everheart, Lianyi Chen, and Tao Sun	
A Simplified Investigation into Fatigue Viability of Additively Manufactured IN-718	97
Austin Schoening, Luke Sheridan, Onome Scott-Emuakpor, and Tommy George	
A Post Mortem Analysis of the Strain-Induced Crystallization Effects on Fatigue of Elastomers	101
B. Ruellan, J.-B. Le Cam, E. Robin, I. Jeanneau, F. Canévet, G. Mauvoisin, and D. Loison	
Analysis of Crack Growth in Compressor Blade Root Subjected to Fatigue	109
Muktai Thomre and K. Ramesh	
An Automated Technique to Analyze Micro Indentation Load-Displacement Curve	115
N. M. Senanayake, Y. Yang, A. K. Verma, R. H. French, and J. Carter	
Mechanics and Mechanisms of Slow Crack Propagation in Brittle Hydrogels	123
Kimberley Mac Donald and Guruswami Ravichandran	
Viscoelastoplastic Damage with Maximum Rate of Dissipation-Based Growth Criterion and Tri-Component Lie Rate Decomposition	127
Richard B. Hall	
Validation of Free-Free Vibration Test Method for Fatigue and Damping Characterization of Thin Structures	131
Thaddeus Crowe, Phil Johnson, Onome Scott-Emuakpor, Dhananjay Kumar, and Tommy George	
Improved Measurement for High-Cycle Fatigue Examination	137
Samantha D. Burton, Emma E. German, Brandon A. Furman, Casey M. Holycross, Onome Scott-Emuakpor, and Ryan B. Berke	
Application of Linear Viscoelastic Continuum Damage Theory to the Low and High Strain Rate Response of Thermoplastic Polyurethane	145
H. Chen and C. R. Siviour	
Shear Property Characterization for Agarose Gel	151
D. W. Millar, M. M. Mennu, K. Upadhyay, A. M. Knapp, and P. G. Ifju	
High Temperature Low-Cycle Fatigue and Creep-Fatigue Behavior of Fe-25Ni-20Cr Austenitic Stainless Steel	155
Zeinab Alsmadi, Abdullah S. Alomari, N. Kumar, and K. L. Murty	
Thermo-Mechanical Characterization of Polyurea Hybrid Blend Variants	163
V. Alizadeh and A. V. Amirkhizi	
Milled Carbon Fiber Polyurea Elastomeric Composites	167
V. Alizadeh and A. V. Amirkhizi
