Preface

v

Chapter 1: Polymers and Composite Materials

On the Effect of Monomeric and Polymeric Plasticizer on Polybutylene Succinate (PBS), Polyhydroxybutyrate (PHB), and Polylactic Acid (PLA) Films with 20wt%PCL for Flexible Packaging Application L. Govindan, M. Ramos and A.M. Al-Jumaily	3
Characterization of the Properties of Bio-CaCO₃ Waste Eggshell and Abaca Fiber Reinforced Hybrid Composites H. Sosiati, M.G. Ma'arif, W.A. Firmansyah and S. Hamdan.....	13
Effect of Crystallization Temperature on the Mechanical and Physical Properties of Solution Cast Polybutylene adipate co-terephthalate/Thermoplastic Starch Films L. Mohanty and S.P. Mohanty	21
The Effects of Citric Acid as Crosslinking Agent on Selected Properties of Cassava Starch Films A.R. Ramos, R.D. Manalo, H.L. Ong, M.U. Herrera and M.D.L. Balela	29
Study of Unsaturated Polyester Primer Reinforced by Microcrystalline Cellulose on Mechanical, Adhesion and Corrosion Properties A. Baharudin, Z. Ahmad, M.N. Sarip, L. Musa, M.A. Mohd Ishak, A. Abd Aziz and M. Onn	35
Property Improvement of Polybutylene Succinate (PBS), Polyhydroxybutyrate (PHB), and Polylactic Acid (PLA) Films with PCL (Polycaprolactone) for Flexible Packaging Application M. Ramos, S. Govindan and A.M. Al-Jumaily	41
Morphology and Properties of Poly(Lactic Acid) and Polybutylene Succinate and Ethylene-Co-Methyl Acrylate-Co-Glycidyl Methacrylate Ternary Blends S. Wacharawichanant, P. Netphong, T. Pipatbannakit and M. Phankokkruad.....	51
Extraction of Nanocellulose from Matured Coconut Husk Y.M.M. Jumadio, R.D. Manalo, M.U. Herrera, H.L. Ong and M.D.L. Balela.....	57

Chapter 2: Materials for Pharmacological and Biomedical Application

Electrochemical Analysis of Magnesium Orotate Tautomers O.M. Kanunnikova, S.M. Reshetnikov, N.N. Chuchkova and M.V. Smetanina.....	67
Hydrogels Based on Chitosan and Sodium Alginate with Shape Memory Effect E.V. Bobrina, N.V. Illarionova, E.V. Salomatina and A.E. Mochalova.....	75

Chapter 3: Structural Metals

Single-Phase High-Entropy Carbides Synthesized from a Mixture of Pre-Mechanically Alloyed TiZrHfTaNb HEA Powders and Carbon N.G. Razumov, T.Y. Makhmutov, A. Kim and A.A. Popovich.....	85
---	----

Microstructure and Mechanical Properties Analysis of Mild Steel with Different Groove Shape Welded Using GMAW	
S.S.S. Elfallah and W.A. Allafi.....	91
Influence of Erbium and Thermal Treatments on the Microstructure and Hardness of Al-Mg-Si Alloy	
M. Mikami and C. Banjongprasert.....	103
Investigation on the Effect of Temperature and CO₂ Partial Pressure on Corrosion of N80 Tubing Steel in Formation Water Environment	
Z.J. Wang and Y.L. Zhao.....	109
Bonding Characteristics of Grey Cast Iron and Microalloyed Steel Using Furnace Brazing	
M. Kyprianidis, D. Ioannidou, A. Kaldellis, V. Stergiou and P. Tsakiridis	115
Understanding Chemistry of Black Coating in Ancient Bidriware and Attempt to Obtain Similar Coats on Pure Copper and Yellow Brass	
J.J.S. Pravalika, K.R. Phaneesh, B. Subbarao and A. Bhuvaneshwari	127
Chapter 4: Additive Manufacturing and Laser Micromachining	
Material Development for Additive Manufacturing: Compressive Loading Behavior of SLA 3D-Printed Thermosets with Nanosilica Powders	
J.R.C. Dizon, R.N.M. Delda, M.V. Villablanca, J. Monserate, L.T. Cancino and H.M.S. Cascolan.....	137
Compression Behavior of Pilar Octahedral Lattice Structures	
D. Syrlybayev, A. Perveen and D. Talamona.....	143
Lap Shear Strength Assessment of Acetone Welded 3D-Printed ABS Polymer	
B.J. Tuazon, M.T. Espino and J.R.C. Dizon.....	149
High-Precision PCB Topologies Formation by Selective Laser Micromachining	
R.V. Chkalov and D.G. Chkalova.....	155
Chapter 5: Strength and Load-Bearing Capacity of Structural Members of Buildings	
Numerical and Experimental Investigation of Axially Loaded Columns with Spiral Reinforcement	
A.L. Krishan, M.A. Astafeva and E.P. Chernyshova	163
Application of a Nonlinear Deformation Model to the Analysis of Complete Moment-Curvature Diagrams of Reinforced Concrete Elements with Reinforcement A500	
V.A. Dzyuba, E.V. Zhuravleva and A.S. Starkova.....	169
Structures of Wooden Beams of Increased Load-Bearing Capacity	
V. Egorov, M. Abu-Khasan, A. Mamirova and P. Sidorova	177
Keyword Index	183
Author Index	185
